

Get 10% off a New PIE Calibrator with the Trade-In of Your Old Altek Calibrator!

Are you using an obsolete Altek calibrator? Now is the time to upgrade.

PIE Calibrators are designed by the same team that developed the Altek calibrators; and are smaller, more rugged and offer innovative troubleshooting tools to help technicians resolve day-to-day plant issues with less equipment, less time and less cost.

Find your Replacement:

PIE Model	Replaced Altek Models	Calibrator Type
334	46, 131, 134, 134-2, 234, 334, 334A	mA
434	434, 434-KP	mA (High Accuracy)
235	135, 235	V
520B & 521B	22	TC Source
